

## Workplace Health Without Borders

Please join us at our next WHWB webinar:

### ***Control Banding for Risk Assessment and Communication***

**November 29, 11:00 a.m. Eastern Standard Time (16:00 UTC)**

**[Register here](#)**

**[Check your local time here](#)**

Control banding is a simple process to communicate and prioritize risks and control exposures to chemical and other hazards in the workplace.

Hosts: Kevin Hedges and Audrey Cunningham, WHWB

#### **Speakers:**

1. **David Zalk:** Overview of Control Banding (CB) and how to apply the CB process internationally especially for underserved populations wherever needed throughout the world. Dr. Zalk will also explain how CB aligns with qualitative and quantitative assessment.
2. **Thomas Tenkate,** “User Friendly” CHAP - Chemical Hazard Assessment and Prioritization. Dr. Tenkate will introduce [CHAP-Risk](#), a tool that allows workplaces to undertake a simple chemical risk assessment.
3. **Mike Phibbs,** will provide an update on how to translate the information from chemical safety data sheets (SDS)

Followed by questions, answers and discussion.

More information on the webinar and speakers is [available here](#).
